**TEXAS COMMISSION ON ENVIRONMENTAL QUALITY**

**NOTICE OF RECEIPT OF APPLICATION AND INTENT TO OBTAIN AIR PERMIT RENEWAL**

PERMIT NUMBER 8915

APPLICATION Lufkin Industries, L.L.C. has applied to the Texas Commission on Environmental Quality (TCEQ) for renewal of Air Quality Permit Number 8915, which would authorize continued operation of the Abrasive Blasting and Surface Coating Facilities located at 3935 F.M. Road 326, Lufkin, Angelina County, Texas 75901. This link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice. For exact location, refer to application. <http://www.tceq.texas.gov/assets/public/hb610/index.html?lat=31.292042&lng=-94.624568&zoom=13&type=r>. The existing facility and/or related facilities are authorized to emit the following air contaminants: particulate matter including particulate matter with diameters of 10 microns or less and 2.5 microns or less and organic compounds.

This application was submitted to the TCEQ on November 28, 2016. The application will be available for viewing and copying at the TCEQ central office, TCEQ Beaumont regional office, and the Lufkin City Hall, 300 East Shepherd Avenue, Lufkin, Angelina County, Texas, beginning the first day of publication of this notice. The facility's compliance file, if any exists, is available for public review in the Beaumont regional office of the TCEQ.

The executive director has determined the application is administratively complete and will conduct a technical review of the application. In addition to the renewal, this permitting action includes the incorporation of the following authorizations or changes to authorized facilities related to this permit: permits by rule and standard permits. The reasons for any changes or incorporations, to the extent they are included in the renewed permit, may include the enhancement of operational control at the plant or enforceability of the permit. For more information about this permit application or the permitting process, please call the Public Education Program toll free at 1-800-687-4040. The TCEQ may act on this application without seeking further public comment or providing an opportunity for a contested case hearing if certain criteria are met.

**PUBLIC COMMENT** You may submit public comments, or a request for a contested case hearing to the Office of the Chief Clerk at the address below. The TCEQ will consider all public comments in developing a final decision on the application. The deadline to submit public comments is 15 days after newspaper notice is published. After the deadline for public comments, the executive director will prepare a response to all relevant and material, or significant public comments. Issues such as property values, noise, traffic safety, and zoning are outside of the TCEQ's jurisdiction to address in the permit process.

After the technical review is complete the executive director will consider the comments and prepare a response to all relevant and material, or significant public comments. If only comments are received, the response to comments, along with the executive director's decision on the application, will then be mailed to everyone who submitted public comments or who is on the mailing list for this application, unless the application is directly referred to a contested case hearing.

**OPPORTUNITY FOR A CONTESTED CASE HEARING** You may request a contested case hearing. The applicant or the executive director may also request that the application be directly referred to a contested case hearing after technical review of the application. A contested case hearing is a legal proceeding similar to a civil trial in state district court. Unless a written request for a contested case hearing is filed
