Ag Barn Pasture Fence Project

November 30, 2018

1. Approximately 1085 lf of new fencing. Contractor to field verify before quoting.
2. All corners, gate posts and mid-point tension posts shall be 2 3/8 steel pipe welded "H" posts.
3. Heavy ga. 6' T-posts are to be 10' on center with "Twistys" mid-point between T-posts.
4. Fencing fabric to consist of Red brand "Keep Safe" V mesh, or an equivalent "No Climb" type fence will be considered.  
2 strands of smooth 12.5 ga horse wire above and below fence fabric.  
"Twistys" at mid-point between T-posts.

Note: Some older existing fence in some areas may be demolished and replaced with the fencing specified above. Please provide a quote per l.f. for additional demolition and fencing as specified.

#### Customer Reviews

Based on 2 reviews [Write a review](#)

#### Product details

- Recognized worldwide by stable managers, breeders, veterinarians and horse owners as the very safest for horses
- V-mesh weave protects hooves or legs from becoming caught in the fence
- Flexes on impact preventing breakage or failure
- Continuous weave pattern means no cut wire ends to harm animals
- Very effective predator control
- Quality galvanized wire with durable zinc coating resists weathering as well as wear and tear
- Easy to install on flat or hilly terrain
- Strong mesh design minimizes potential for injury by flexing on impact
- Horizontal Wire: 12 1/2 Gauge
- Vertical Wire: 14 Gauge
- Line Wires: 15
- Resource #77856
